Patterns and Dimensions

They are talking to me.

- Everytime people close their eyelids the answers are right there in front of them, in front of me.
- Have everyone meditate because we know how to build the pyramids. We will teach them.
- Aliens in the bathroom want to tell me things and give me answers.
- The stars talk to me and give me answers. I created the constellations. We are Aliens.
- Why don't I listen to my body. I need to start listening.
  - Why don't you?
- Because I think I can't do it - (self limiting belief)
